Subject: Re: Quick Connect?

Drew - thanks for letting us know. Given our recent conversations with some of your colleagues, and understanding the org changes/your new role, we'd love the chance to briefly connect.

Perhaps the week after next? Is there a day that works best for a quick virtual chat?

Best,

Hi everyone - looking forward to next week!

Rodrigo, Nick, and Drew, please let me know if you're able to attend and I will make sure we have the right number of tickets reserved.

I'll send one final confirmation next week and forward your ticket at that time if you don't already have one from the original game.

Best,
Dom

Hi Dom,

It was great meeting you and Russ last night—thank you for the invitation.

Next week is a short week for me, and I'll be traveling the following week. If there's another game night in late July, let's plan to catch up then and align on a more detailed agenda for a follow-up virtual meeting.

Best,
Sarah

Sarah and Rodrigo,

It was great meeting both of you at the game last night. So unfortunate Mother Nature had other plans for the evening, but I really enjoyed the conversation while we had the chance.

We'd love the opportunity to continue the conversation. Would you be open to a quick virtual meeting sometime next week and explore some of the ideas we were discussing?

Let me know if you have any availability early next week or the week of 7/6.

Looking forward to continuing the conversation!

Best,

Subject: Re: Introduction

Hi Brunno,

Hope you're doing well. Wanted to check back in and see if you're able to connect later this week.

We'd love to get some time on the calendar to hear what you're seeing from your perspective and catch you up on some of the work we've been doing with a few of your colleagues across infrastructure and operations.

And while IBM is involved in the SAP RFP process, we're happy to stay within whatever boundaries are appropriate there.

Do you have a few minutes this Thursday or Friday?

Best,

Hi Brunno,

Nice to meet you as well, and welcome back. No problem at all, we'd be happy to reconnect in a few weeks once things settle down. I'll make a note to reach back out.

To answer your question, yes, we've been speaking with Tom Mann, although not directly with his team in St. Louis. We've also been working closely with Trevor Milne, Thiago and members of his team, along with a few others involved in infrastructure, automation, data center consolidation, and modernization initiatives.

Best,

Dom Tovani

Hi Dom, nice to meet you,

IT team is going through a new reorganization, I just came back from my annual leave and trying to catchup with all the changes.

I may need to postpone our chat for a few weeks meanwhile, if you can share with me which are the key Bunge staff you worked with and current projects, It will help me a lot.

Are you working with Tom Mann's group in NA?

Hi Brunno,

I wanted to reach out as I lead IBM's relationship with Bunge and have been spending time with several teams across the organization as the integration efforts continue to progress.

We've been having recent discussions around SAP, standardization, and long-term modernization priorities, and I thought it would be valuable to connect and get your perspective on where things stand and what you're seeing across the business.

Do you have a few minutes to connect tomorrow or early next week?

Subject: Fw: Revised Timelines SAP S4 Integration RFP

Good news from Bunge IT Procurement!

The Original RFP timeline has been extended by one week because they need more time to answer Vendor questions submitted. See below.

The **Initial Proposal Submission Date is now Wednesday, July 22.**

However, I recommend that we stay on task and work to complete this RFP response ASAP.

Thanks,
Gene

Dear Partner,

As the Bunge team requires more time to answer the questions received we are amending the schedule of the RFP as mentioned in the table below.

Activities highlighted in Yellow are the ones which have been amended to accommodate the additional time required.

Request you all to kindly refer the below RFP schedule going forward.

Thank You for your continued support and wishing you a happy weekend.

Sr.no	Activity	Start Date	End Date
1	RFP Launch & Vendor Acknowledge	06/29/26	06/29/26
2	Q&A Submission by Vendors	06/29/26	07/03/26
3	Q&A Response by Bunge	06/29/26	07/15/26
4	Initial Proposal Submission	07/21/26	07/22/26
5	Evaluation of Proposals	07/22/26	07/27/26
6	Clarification Sessions with Vendors (If Required)	07/28/26	07/29/26
7	Vendor Down select / Final decision (steering co. review)	07/29/26	07/31/26
8	Best and Final Offer (BAFO) Proposal Submission	08/03/26	08/14/26
9	Contract Negotiations	08/14/26	08/26/26
10	Contract Signatures by both Parties	08/24/26	08/28/26

Hi Thiago,

Do you have a few minutes to compare notes from some of the discussions we've been having with Curtis and his team? We've had a few good conversations and thought it'd be helpful to share what we're hearing and align on next steps.

If the proposed time doesn't work, feel free to suggest another and I'll adjust.

Best,
Dom

Russ Conner

From: Dom Tovani
Sent: Wednesday, July 8, 2026 4:37 PM
To: Curtis Kowalchuk
Cc: Russ Conner; KIM SEITHEL; Douglas Gullledge; Shane Korbel; eduardo.solis; Robert Van Sickle; Thiago Prado de Castro
Subject: Follow-Up and Coordinating Next Steps

Curtis,

Great speaking with you today.

As discussed, we'd like to bring everyone together for a working session so we can compare notes across the infrastructure consolidation effort and the initiatives that Thiago's team is driving. We want to ensure we're aligned on priorities to avoid overlapping conversations and better understand how these efforts intersect.

I've included Thiago, Eduardo, and Rob on this note. Curtis, if you wouldn't mind forwarding this to Rich as well so he can be included in the next discussion.

For the next meeting, we'd like to focus on:

- Data center consolidation priorities and timelines
- Application and database rationalization efforts
- Asset visibility and dependency mapping
- Monitoring, observability, and automation initiatives
- Areas where the teams overlap and opportunities to coordinate efforts

To help coordinate a time, I'll send a placeholder for next week. If the timing doesn't work, please feel free to decline or suggest an alternative and we'll find a better slot.

Looking forward to continuing the conversation.

Best,

Dom Tovani

Hi Dom,

It was great meeting you and Russ last night—thank you for the invitation.

Next week is a short week for me, and I'll be traveling the following week. If there's another game night in late July, let's plan to catch up then and align on a more detailed agenda for a follow-up virtual meeting.

Best,
Sarah

Sarah and Rodrigo,

It was great meeting both of you at the game last night. So unfortunate Mother Nature had other plans for the evening, but I really enjoyed the conversation while we had the chance.

We'd love the opportunity to continue the conversation. Would you be open to a quick virtual meeting sometime next week and explore some of the ideas we were discussing?

Let me know if you have any availability early next week or the week of 7/6.

Looking forward to continuing the conversation!

Best,

Sarah - sounds great. The makeup game has been scheduled for July 23rd at 4:15pm. Does that date work?

Please feel free to invite anyone else on your team who would like to join us.

Best,

Dom Tovani

Hi Dom,

It was great meeting you and Russ last night—thank you for the invitation.

Next week is a short week for me, and I'll be traveling the following week. If there's another game night in late July, let's plan to catch up then and align on a more detailed agenda for a follow-up virtual meeting.

Best,
Sarah

Sarah and Rodrigo,

It was great meeting both of you at the game last night. So unfortunate Mother Nature had other plans for the evening, but I really enjoyed the conversation while we had the chance.

We'd love the opportunity to continue the conversation. Would you be open to a quick virtual meeting sometime next week and explore some of the ideas we were discussing?

Let me know if you have any availability early next week or the week of 7/6.

Looking forward to continuing the conversation!

Best,

Dom Tovani

Hi Dom,

Thanks, July 23th works for me. In addition to Rodrigo, I extended the invite to Randy (Sr Dir Risk Projects), Nick (Dir AI Strategy), and Drew (Dir AI solutions).

Look forward to it!

Best,
Sarah

Hello Team,

I sent an invitation to all for tomorrow to discuss about this Bunge's RFP – follow attached the respective RFP Documents & Timelines.

These are the main Milestones:

Sr. No.	Activity	Start Date	End Date
1	RFP Launch & Vendor Acknowledge	6/29/2026	6/29/2026
2	Q&A Submission by Vendors	6/29/2026	7/3/2026
3	Q&A Response by Bunge	6/29/2026	7/10/2026
4	Initial Proposal Submission	7/14/2026	7/15/2026
5	Evaluation of Proposals	7/15/2026	7/20/2026
6	Clarification Sessions with Vendors (If Required)	7/20/2026	7/22/2026
7	Vendor Down select / Final decision (SteerCo review)	7/23/2026	7/24/2026
8	Best and Final Offer (BAFO) Proposal Submission	7/27/2026	8/7/2026
9	Contract Negotiations	8/10/2026	8/21/2026
10	Contract Signatures by both Parties	8/24/2026	8/28/2026

Thanks in advance for your attendance!

Subject: Fw: Bunge RFP S4 HANA Brownfield implementation

Hi Margo:

Distribution IL Paul Rakowski has provided his approval to pursue the **Bunge Global SA SAP S/4HANA and RISE Brownfield RFP**, which is due Wednesday, July 15th.

All of Bunge's RFP documents are attached, together with an excel spreadsheet of the RFP Timeline.

Proven Brownfield Migration Expertise. As soon as the ISC Opportunity is created, Anna Flyagina will assign a SAP Solutioning Lead who will work with (1) Rocky Singh, Manisha Kamat, Pegs (IBM Accelerated Move Center in Bangalore), (2) Dom, Russ and IBM Tech @ Bunge, and (3) other key IBMers to bring a **ONE IBM** Team together to develop our Brownfield migration proposal to migrate Bunge's three-(3) SAP ECC EHP 8 Systems (North America, South America, EMEA) from on-premise IBM Power to **RISE on IBM Cloud**.

Agentic AI to deliver SAP. Shivani Parikh will help us present how IBM uses Agentic AI to deliver SAP Projects. Bunge was extremely impressed at Sapphire by the Lemongrass presentation using Agentic AI to deliver SAP projects. We can do better!

Agribusiness Industry Expertise. TruQua's Corey Olson and several of his colleagues from Cargill are all now IBMers. In addition, Jack McCoy has provided a list of the Top 13 agribusiness companies that do business with IBM.

Finance and Procurement Transformation with contractually guaranteed savings from IBM. While this is 100% a brownfield migration of Bunge's three-(3) ECC Systems, the RFP asks for ideas to help them with Finance and Procurement Transformation. Atul Sharma, together with Corey Olson and others, can show how building a joint Bunge and IBM managed services delivery partnership can deliver (1) contractually guaranteed savings and (2) a world class delivery organization that Bunge can take over and run itself when ready.

Time is of the essence. So, I will put a call on everyone's calendar tomorrow, so that we can develop the winning RFP response for Bunge Global SA.

Thanks,
Gene

Greetings from Team Bunge!

We are excited to invite you to an RFP process for “**S4 HANA Brownfield implementation**” to seek your proposal for a win-win business proposition. We request you to please read the instructions carefully and adhere to them throughout the sourcing process.

There are total of 4 RFP documents attached with this email.

As immediate next few steps, we request:

1. Acknowledgement of receiving this RFP & Confirmation of your intent to participate in this competitive bidding before Close of Business today CST.
2. Your questions on the RFP by Friday, July 03, 2026 (5 PM US Central Time)

We will also send this RFP through **Coupa (Bunge’s Digital procurement tool) tomorrow**. Bunge Procurement support team will provide you any assistance to resolve your issues or queries related to this tool.

We expect all your communication with Bunge to happen both through Coupa tool and emails to Sai Vinayak Raina .

The release of this RFP package does not obligate Bunge in any manner and does impose any liability upon Bunge. Bunge shall at no time be liable to Vendor bidding on this RFP, or to any other party, for costs incurred by the Vendor during the sourcing process.

We wish you and your team all the very best and looking forward to great collaboration with you.

Regards

Sai

Hi Margo:

Distribution IL Paul Rakowski has provided his approval to pursue the **Bunge Global SA SAP S/4HANA and RISE Brownfield RFP**, which is due Wednesday, July 15th.

All of Bunge's RFP documents are attached, together with an excel spreadsheet of the RFP Timeline.

Proven Brownfield Migration Expertise. As soon as the ISC Opportunity is created, Anna Flyagina will assign a SAP Solutioning Lead who will work with (1) Rocky Singh, Manisha Kamat, Pegs (IBM Accelerated Move Center in Bangalore), (2) Dom, Russ and IBM Tech @ Bunge, and (3) other key IBMers to bring a **ONE IBM** Team together to develop our Brownfield migration proposal to migrate Bunge's three-(3) SAP ECC EHP 8 Systems (North America, South America, EMEA) from on-premise IBM Power to **RISE on IBM Cloud**.

Agentic AI to deliver SAP. Shivani Parikh will help us present how IBM uses Agentic AI to deliver SAP Projects. Bunge was extremely impressed at Sapphire by the Lemongrass presentation using Agentic AI to deliver SAP projects. We can do better!

Agribusiness Industry Expertise. TruQua's Corey Olson and several of his colleagues from Cargill are all now IBMers. In addition, Jack McCoy has provided a list of the Top 13 agribusiness companies that do business with IBM.

Finance and Procurement Transformation with contractually guaranteed savings from IBM. While this is 100% a brownfield migration of Bunge's three-(3) ECC Systems, the RFP asks for ideas to help them with Finance and Procurement Transformation. Atul Sharma, together with Corey Olson and

others, can show how building a joint Bunge and IBM managed services delivery partnership can deliver (1) contractually guaranteed savings and (2) a world class delivery organization that Bunge can take over and run itself when ready.

Time is of the essence. So, I will put a call on everyone's calendar tomorrow, so that we can develop the winning RFP response for Bunge Global SA.

Thanks,
Gene

Hi Brunno,

Nice to meet you as well, and welcome back. No problem at all, we'd be happy to reconnect in a few weeks once things settle down. I'll make a note to reach back out.

To answer your question, yes, we've been speaking with Tom Mann, although not directly with his team in St. Louis. We've also been working closely with Trevor Milne, Thiago and members of his team, along with a few others involved in infrastructure, automation, data center consolidation, and modernization initiatives.

Best,

Hi Dom, nice to meet you,

IT team is going through a new reorganization, I just came back from my annual leave and trying to catchup with all the changes.

I may need to postpone our chat for a few weeks meanwhile, if you can share with me which are the key Bunge staff you worked with and current projects, It will help me a lot.

Are you working with Tom Mann's group in NA?

Hi Brunno,

I wanted to reach out as I lead IBM's relationship with Bunge and have been spending time with several teams across the organization as the integration efforts continue to progress.

We've been having recent discussions around SAP, standardization, and long-term modernization priorities, and I thought it would be valuable to connect and get your perspective on where things stand and what you're seeing across the business.

Do you have a few minutes to connect tomorrow or early next week?

Best,

Dom Tovani
Client Executive, IBM

Hi Brunno,

Nice to meet you as well, and welcome back. No problem at all, we'd be happy to reconnect in a few weeks once things settle down. I'll make a note to reach back out.

To answer your question, yes, we've been speaking with Tom Mann, although not directly with his team in St. Louis. We've also been working closely with Trevor Milne, Thiago and members of his team, along with a few others involved in infrastructure, automation, data center consolidation, and modernization initiatives.

Best,

Dom Tovani

Hi Dom, nice to meet you,

IT team is going through a new reorganization, I just came back from my annual leave and trying to catchup with all the changes.

I may need to postpone our chat for a few weeks meanwhile, if you can share with me which are the key Bunge staff you worked with and current projects, It will help me a lot.

Are you working with Tom Mann's group in NA?

Greetings from Team Bunge!

We are excited to invite you to an RFP process for “**S4 HANA Brownfield implementation**” to seek your proposal for a win-win business proposition. We request you to please read the instructions carefully and adhere to them throughout the sourcing process.

There are total of 4 RFP documents attached with this email.

As immediate next few steps, we request:

1. Acknowledgement of receiving this RFP & Confirmation of your intent to participate in this competitive bidding before Close of Business today CST.
2. Your questions on the RFP by Friday, July 03, 2026 (5 PM US Central Time)

We will also send this RFP through **Coupa (Bunge's Digital procurement tool) tomorrow**. Bunge Procurement support team will provide you any assistance to resolve your issues or queries related to this tool.

We expect all your communication with Bunge to happen both through Coupa tool and emails to Sai Vinayak Raina .

The release of this RFP package does not obligate Bunge in any manner and does impose any liability upon Bunge. Bunge shall at no time be liable to Vendor bidding on this RFP, or to any other party, for costs incurred by the Vendor during the sourcing process.

We wish you and your team all the very best and looking forward to great collaboration with you.

Regards

Sai

Hi Bob,

Great catching up today. As discussed, putting time on the calendar to walk through some of the examples we mentioned around how IBM is approaching AI internally (Client Zero) and share a few practical perspectives around data and governance.

Feel free to forward this to your team members and please adjust the invite if needed.

Best,
Dom

Founded in 1818, Bunge Global SA (NYSE: BG) with \$70.33b in annual revenue operates worldwide as a major **agribusiness and food company**, with its headquarters in St. Louis, Missouri, and incorporation in Geneva, Switzerland. Bunge employs approximately 23,000 people across 40 countries.

The company manages production, distribution, and risk across fully integrated end-to-end value chains, connecting farmers to consumers and delivering essential food, feed, and fuel globally. Bunge is recognized as the world's largest oilseed processor, the leading seller of bottled vegetable oil, and a major fertilizer supplier in South America.

The company operates through four main segments: Soybean Processing and Refining, Softseed Processing and Refining, Other Oilseeds Processing and Refining, Grain Merchandising and Milling. Current SAP ECC – Core business solution key characteristics:

- Agribusiness solution (primarily based on SAP GTM, MM, and SD) represents a core business capability and is highly customized across the three SAP instances, with instance-specific custom solution variations and demanding performance requirements.

- Food business solution (primarily based on SD) consists of a more customized implementation in North America and a more standardized solution in EMEA.
- Finance solution (covering FI, CO, TR, and FSCM) is largely based on standard SAP capabilities, with limited customization (New GL implemented in BEP but not in PR1 and RPE)
- Industrial solution (covering PP, PM, WM, and MM) is primarily based on standard SAP functionality in all SAP instances
- Indirect procurement: SRM

Bunge's IT Landscape is managed by a mix of key infrastructure (hosting) partners and BUNGE Staff. Accenture has an AMS contract with Bunge. ACN is also one of the 3 primary SAP delivery partners at Cargill.

10	Contract Signatures by both Parties	8/24/2026	8/28/2026

Founded in 1818, Bunge Global SA (NYSE: BG) with \$70.33b in annual revenue operates worldwide as a major **agribusiness and food company**, with its headquarters in St. Louis, Missouri, and incorporation in Geneva, Switzerland. Bunge employs approximately 23,000 people across 40 countries.

The company manages production, distribution, and risk across fully integrated end-to-end value chains, connecting farmers to consumers and delivering essential food, feed, and fuel globally. Bunge is recognized as the world's largest oilseed processor, the leading seller of bottled vegetable oil, and a major fertilizer supplier in South America.

The company operates through four main segments: Soybean Processing and Refining, Softseed Processing and Refining, Other Oilseeds Processing and Refining, Grain Merchandising and Milling. Current SAP ECC – Core business solution key characteristics:

- Agribusiness solution (primarily based on SAP GTM, MM, and SD) represents a core business capability and is highly customized across the three SAP instances, with instance-specific custom solution variations and demanding performance requirements.

- Food business solution (primarily based on SD) consists of a more customized implementation in North America and a more standardized solution in EMEA.
- Finance solution (covering FI, CO, TR, and FSCM) is largely based on standard SAP capabilities, with limited customization (New GL implemented in BEP but not in PR1 and RPE)
- Industrial solution (covering PP, PM, WM, and MM) is primarily based on standard SAP functionality in all SAP instances
- Indirect procurement: SRM

Bunge's IT Landscape is managed by a mix of key infrastructure (hosting) partners and BUNGE Staff. Accenture has an AMS contract with Bunge. ACN is also one of the 3 primary SAP delivery partners at Cargill.

Hi Dom,

It was great meeting you and Russ last night—thank you for the invitation.

Next week is a short week for me, and I'll be traveling the following week. If there's another game night in late July, let's plan to catch up then and align on a more detailed agenda for a follow-up virtual meeting.

Best,
Sarah

Sarah and Rodrigo,

It was great meeting both of you at the game last night. So unfortunate Mother Nature had other plans for the evening, but I really enjoyed the conversation while we had the chance.

We'd love the opportunity to continue the conversation. Would you be open to a quick virtual meeting sometime next week and explore some of the ideas we were discussing?

Let me know if you have any availability early next week or the week of 7/6.

Looking forward to continuing the conversation!

Best,

Dom Tovani

Hi team - I'd like to get everyone together to make sure we're aligned on the SAP opportunity. I'll go ahead and send out some time for tomorrow.

If the proposed time doesn't work, feel free to counter. Also, please forward the invite to anyone I've missed who should be part of the discussion.

Best,

Dom Tovani

Gene

Thank you for the call and letting me know we now have the NDA back from Bunge. The NDA is in legal/contracts, and we are in a great position to receive the Bunge RFP.

Regards,

Subject: Mutual NDA for IBM Consulting and Bunge's upcoming SAP SI RFP

Hi Tom:

My name is Gene Allen, and I am IBM Consulting's Sr. Partner who will be leading IBM's SAP SI RFP response for Bunge Global.

My fellow IBM colleagues on this e-mail shared with me that you will be helping us to receive a mutual NDA from Bunge's Procurement, which needs to be put in-place for this upcoming SAP SI RFP.

Can you provide me with a status update regarding receiving Bunge's mutual NDA and the RFP?

Thanks,
Gene

Subject: Introduction

Hi Brunno,

I wanted to reach out as I lead IBM's relationship with Bunge and have been spending time with several teams across the organization as the integration efforts continue to progress.

We've been having recent discussions around SAP, standardization, and long-term modernization priorities, and I thought it would be valuable to connect and get your perspective on where things stand and what you're seeing across the business.

Do you have a few minutes to connect tomorrow or early next week?

Best,
